

In the Field Crossword Puzzle

Across:

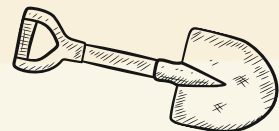

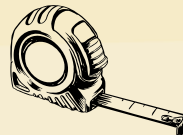

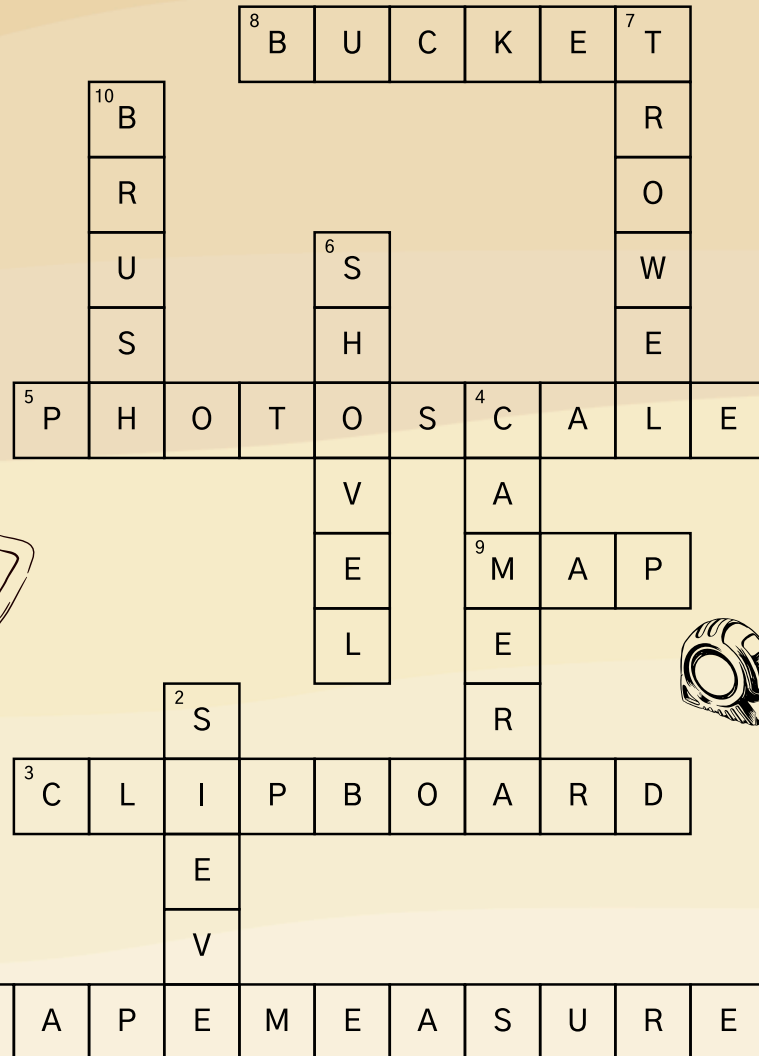

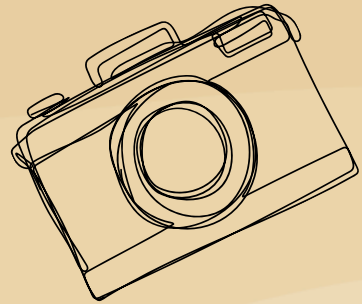

1. This tool stretches far out to give archaeologists exact distances, lengths, and widths
3. This handheld tool helps to hold paper steady and gives archaeologists a hard surface to write down their observations and notes
5. Black and white are the primary colors of this tool, but it's NOT a zebra. This tool helps to show accurate sizing of an artifact
8. This tough tool can carry it all! Fill it up with soil, rocks, or even water
9. Where are you? This tool made of paper helps archaeologists understand exactly where they are and where important sites are

Down:

2. Shake, shake, shake! This tool helps archaeologists catch very small treasures that are hiding in the dirt
4. Capture what a site looks like with the click of a button
6. A tool used for digging, lifting, and moving large amounts of loose soil and rocks
7. A small handheld tool with a flat pointed blade
10. This gentle tool sweeps away dirt. You may use this for creative activities, like painting!
